SUMMARY

Full stack professional known for delivering high-quality, robust code. Motivated team player who excels at solving complex problems with passion and precision.

EDUCATION

Private Higher School of Engineering and Technology (ESPRIT)

Software Engineering Degree

2021 - PRESENT

Ariana, Tunisia

EXPERIENCE

Full Stack Developer

06 / 2024 – 08 / 2024

CNI

Tunis, Tunisia

Built responsive interfaces with React, developed scalable RESTful APIs using Node.js and managed code with Git and GitHub.

Human and Social Training

08 / 2022 – 09 / 2022

ALPHA TECHNOLOGY

Ben Arous, Tunisia

Handled customer requests, assigned them to relevant staff, scheduled repair appointments and followed up on technical work progress.

PROJECTS

SustainaFood – MERN Stack Application with AI Integration (02 / 2025 – 05 / 2025)

Built a full MERN stack app promoting sustainable food culture, integrating AI via Flask and Python for data analysis. Managed tasks with GitHub Projects, version control with Git, and automated CI/CD using GitHub Actions. Ensured code quality with SonarQube Cloud and trained AI models in Google Collab.

Microservices Application with Spring Boot, Docker and Angular (02 / 2025 – 05 / 2025)

Built a microservices-based app using Spring Boot with multiple databases (H2, MySQL, MongoDB, PostgreSQL). Used Docker for containerization, hosted images on DockerHub, and serviced discovery using Eureka. Secured authentication with Keycloak and developed the frontend in Angular.

Spring Boot Project with DevOps Integration (09 / 2024 – 04 / 2025)

Created a clean architecture modular Spring Boot application with JPQL, scheduled tasks, and AOP logging. Developed CI/CD pipelines on Jenkins with SonarQube, Docker, and Nexus integration. Employed Prometheus for performance monitoring and presented metrics in Grafana dashboards.

SKILLS

Back-End Development:

- NodeJS, Spring Boot, .NET

Front-End Development:

- Angular, React, JavaScript, TypeScript, HTML5, CSS

UI/UX & Component Libraries:

- Tailwind CSS, Bootstrap, Material UI

Database & Storage:

- MongoDB, MySQL, PostgreSQL

Infrastructure & Deployment:

- Docker, CI/CD, GitHub Actions

Tools and Practices:

- Agile, Documentation, Testing, Git

LANGUAGES

Arabic (Native)

English (Professional Working Proficiency)

French (Limited Working Proficiency)
